
"Coseer Is A Rising Star" - Independent Reviewer

San Francisco/ Palo Alto, September 5 - The team of experts of an independent review platform has concluded that Coseer is a Rising Star among software vendors. The honors comes with two other recognitions.

First, after careful scrutiny of hundreds of software products in Finance, B2B and SaaS space, Finances Online, the fastest growing independent [review platform](#) in the category, found Coseer to be among Top 50 Workflow Management Software.

The team of experts also found that Coseer has 100% User Satisfaction, and awarded Great User Experience award for 2017. This award is granted to products that offer especially good user experience. The Finances Online team evaluates how easy it is to start using the product and how well designed the product's features and interfaces are to facilitate work process.

The team recognized Coseer as a Rising Star for 2017. This award is reserved for companies that have recently entered the market but are already becoming very popular.

What is Next-Generation Enterprise Search?

Coseer's search solutions are transforming industries from healthcare to finance. Our point-and-shoot AI trains finds answers and insights with 95%+ accuracy within 4-12 weeks - all of this in 100% security. The reason? We founded Coseer on the principle that computers should take care of the boring stuff so that humans can focus on creativity and judgment. To that end, we've built enterprise search solutions to complete complex workflows just as humans would in a fraction of the time. Fortune 500 leaders are using Coseer to speed up and automate their most complex work.

We follow a tactical approach to enterprise search:

- We deliver 95-98% accurate solutions within 4-12 weeks.
- Our solutions deploy entirely behind your own firewall for 100% security, and every decision point is logged for full transparency.
- You add the finishing touches, but our point-and-shoot AI practically trains itself. No more huge training data sets or time wasted annotating and tagging.
