
Wealth Management with Natural Language Search

Wealth Management is all about intelligence. The kind that is strewn around your notes, your computer, your cloud, and the internet. Coseer's natural language search can search for each of these insights from all over, prioritize them for you and deliver them together, so that you can make the most informed decisions possible.

Whether you're servicing clients or balancing your own portfolio, we've got a tool to help.

Learn how to navigate Coseer's suite of finance tools in this 3 minute video.

Try it now.

Coseer's live demo browses updates from over 3 million documents per day. Get a taste of what Coseer can do for your enterprise (or your portfolio) here:

What is Next-Generation Enterprise Search?

Coseer's search solutions are transforming industries from healthcare to finance. Our point-and-shoot AI trains finds answers and insights with 95%+ accuracy within 4-12 weeks - all of this in 100% security. The reason? We founded Coseer on the principle that computers should take care of the boring stuff so that humans can focus on creativity and judgment. To that end, we've built enterprise search solutions to complete complex workflows just as humans would in a fraction of the time. Fortune 500 leaders are using Coseer to speed up and automate their most complex work.

We follow a tactical approach to enterprise search:

- We deliver 95-98% accurate solutions within 4-12 weeks.
- Our solutions deploy entirely behind your own firewall for 100% security, and every decision point is logged for full transparency.
- You add the finishing touches, but our point-and-shoot AI practically trains itself. No more huge training data sets or time wasted annotating and tagging.

Visit our [website](#) for in-depth case studies, ROI breakdowns per industry, and other insight.
